

The **MCap®** is an audiophile metallized polypropylene capacitor. In selection of the materials used, special attention was given to the sound properties.

The practically induction-free type of construction and the low loss factor of the **MCap®** results in a very „quick“ capacitor. The **MCap®** forms the basis for vivid music reproduction rich in nuance.

The **MCap®** series of audiophile MKP condensers has been expanded by a complete 250 VDC line-up in order to avoid any loss of sonically quality caused by lack of space or a tightened budget.

Technical specifications:

Dielectric: Polypropylene
Dielectric strength: 250 - 630 VDC
Loss factor: $\tan \delta = 0.0002@1\text{kHz}@1\mu\text{F}$
Permissible ambient temperature 85°C/185°F

MCAP250 (replaced MKT)

MKP-capacitors, 250 VDC
